

PORTLAND CEMENT.—FREEMAN & RICHARDSON have much pleasure in introducing to the trade the above superior CEMENT, being of uniform color and quality in all seasons, before attained in Portland Cement. It is made from the best materials, and its quality renders the action of frost and heat, and is more durable than any other cement; does not vegetate, turn green, or crack, combining with it the eminent hydraulic properties; stands up as well under water as in air, and is perfectly adapted for all purposes where a first-rate requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by J. FREEMAN & Co., at their works near the River Avon, and sent in casks of the London port bag or rail, at a reduced price to the
